

## AAO Foundation Award Final Report

Principal Investigator	Greg J. Huang, DMD, MSD, MPH
Co-Investigator	
Secondary Investigators	
Award Type	Faculty Development Fellowship Award
Project Title	
Project Year	2000
Institution	University of Washington
Summary/Abstract (250 word maximum)	<p>Dr. Huang has an appointment as Acting Assistant Professor at the University of Washington, and has spent the past two years earning an MPH in epidemiology. As part of his departmental responsibilities, he supervises in the graduate orthodontics clinic, serves as director of the Journal Club, and gives occasional lectures to both dental students and orthodontic residents. He has also been participating in several research projects with his mentors, as well as with graduate students. Additionally, he has recently submitted a grant proposal to NIDCR to investigate the association between third molar removal and TMD.</p> <p>Dr. Huang has been fortunate to receive the AAOF Faculty Development Fellowship Award during the past two years. In 2000, monies from the award were utilized for tuition and salary supplement. In 2001, the funds were used for imaging equipment and salary supplement. The awards have been very helpful, as they have allowed Dr. Huang to devote more time towards various research activities.</p>
Were the original, specific aims of the proposal realized?	Yes
Were the results published? If not, are there plans to publish? If not, why not?	No. Award was primarily intended for salary support.
Have the results of this proposal been presented? If so, when and where? If not, are there plans to do so? If not, why not?	No. Award was primarily intended for salary support.
